

Mrs. Russo
Media Specialist

I am very pleased to have been chosen as part of the St. Patrick family. I was born in Grand Rapids and graduated from Creston High School. I earned my Bachelor's degree from Central Michigan University with a major in Teaching the Mentally Impaired and a minor in Elementary Education. My Master's degree, also from Central, is in Learning Disabilities. My experience includes 17 years teaching in various positions K-12 as a special education teacher and consultant. My final 15 years were spent teaching 5th grade math, language arts, and social studies in the Northview school district.

My role at St. Patrick's is not limited to computer teacher / librarian. I see myself as a support for teachers and students in the ever increasing expectations in education. As a classroom teacher for many years, I am very aware of the need for individual / small group instruction for some students, as well as the limited time available in the average classroom. I hope to be able to support classrooms and students in this capacity as well as incorporating classroom objectives into computer and library time.

I look forward to meeting the students and their families and to helping to continue to provide the high quality educational journey for St. Patrick's students.
