

Ms. Schoenborn
Teacher, 3rd and 4th Grades

I am the fourth generation of my family to have attended St. Patrick School! I feel that my education at St. Patrick's gave me an excellent foundation for my future, both academically and personally. That is one of the reasons why I chose to complete my Bachelor's degree at Aquinas College where I also earned my teacher's certificate as well as a reading specialist endorsement and my Master's degree in Special Education with two endorsements in teaching students with learning disabilities and emotional impairments.

My graduate course of studies has helped me to better accommodate the needs of many of the students at our school.

I am often impressed with the education my students have already received from their parents at home. The dedication of our school families is one of the reasons our school is so special. I would not be able to do my job without their support. Our parents and teachers do have high expectations and the students are always ready to meet the challenge. It is wonderful to take the students on field trips or have a special presentation at school and have the people in charge comment on the students' good behavior.
