

Mrs. Walsh
Teacher, Young Five and
Kindergarten

St. Patrick's, young five and kindergarten programs reflect our mission statement – preparing the whole child, spiritually, intellectually, socially and culturally. Young fives and kindergarten provide a year of readiness activities to prepare each child for their next year of school by introducing language and math readiness activities, and physical and social readiness skills.

I love teaching at a Catholic school because of the close relationship I have with my students' parents. I have an open door policy and encourage the parents to take an active role in their child's education. I have always felt blessed to have caring, giving parents that enhance the atmosphere of my classroom.
